SUMMARY

Data analyst with experience building reporting tools, analyzing operational data, and creating dashboards using SQL, Tableau, Excel, and Python.

WORK EXPERIENCE

NYC Department of Transportation | Data Analyst Intern

Nov. 2021 - Jan. 2026

- Co-built a real-time geospatial traffic flow map to monitor live vehicle flow across all 5 NYC boroughs and support citywide congestion response (flowmap.nyctmc.org).
- Built and maintained operational reporting tools for traffic counts, incidents, and speed enforcement activity across 850+ cameras, helping ensure 95%+ data accuracy.
- Queried and analyzed year-over-year BQE traffic data using SQL and Excel pivot tables to identify congestion trends and support contractor scheduling during construction operations.
- Delivered traffic impact analyses for major NYC events, including the NYC Marathon and Yankees/Mets games, to support traffic planning and congestion management.

YnotCard | Founder & Data Analyst

March 2025 – Present

- Managed analytics and inventory operations for an e-commerce business with \$70K+ revenue and 5,000+ sales across multiple marketplaces using Excel models and pivot table reporting.
- Analyzed platform fees, shipping costs, and inventory data across TCGplayer, eBay, and Whatnot to determine which items to prioritize on each platform based on fee structure and buyer behavior.
- Tracked sales and inventory KPIs across 3 platforms to guide restocking and markdown decisions based on product demand.

PROJECTS

YnotCard Inventory & Sales Dashboard | [Vercel App](#) | [Github](#) | [Tableau](#) | [Excel](#)

April 2026 – Present

- Built a full-stack Next.js dashboard to track sales KPIs, inventory performance, and 458 marketplace orders across multiple platforms in 2026.
- Created Tableau dashboards analyzing geographic demand, weekly sales trends, and shipping costs from 394 TCGPlayer transactions during Q1 2026.
- Used Python scripts and Excel analysis to clean inventory data, filter errors, and identify slow-moving listings for pricing adjustments and faster turnover.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, JavaScript, TypeScript

Visualization & Analytics: Tableau, Excel (Pivot Tables), Data Visualization, KPI Reporting, Business Analysis

Databases & Cloud: PostgreSQL, AWS RDS, Firebase

Tools: Git, GitHub, Docker, VSCode, Figma

EDUCATION

CUNY Hunter College

Bachelor of Arts in Computer Science

Sept. 2020 - Dec. 2024

Manhattan, NY

CERTIFICATION

CodePath Technical Interview Prep

April 2025

Coursera Google Data Analytics Professional

March 2025
